

# GENTLE GUARDIAN

Your singular platform of choice for active monitoring of elderly loved ones.

## WORRY LESS

Worry less by knowing elderly loved ones are monitored for emergencies like falls, and in touch with two way communication.

## EMERGENCIES

We provide 24/7 command center support to monitor and link up with emergency services when needed.

## OVERWATCH

Our wearables collect BPM, Blood Pressure, SpO2, temperature and location data to keep you updated on their vital wellbeing.

## ACTIVE STATS

Take a bird's eye overview of your loved ones vital information at a glance with our mobile or web app.

## OUR COMMAND CENTER

### ABNORMALITY

Our command center is staffed 24/7 to keep track of abnormal activity based on your criteria. Falls, leaving geofenced areas, etc.

### CONTACT

In the event of an abnormality, we establish contact with your loved one in a language they understand to ensure they are all right.

### NOTIFY

We notify you on your elderly loved one's condition.

### TRIGGER HELP

If necessary, we provide you the option to transmit your loved one's location and information to emergency services for followup.
